

## Digital Car Gauges Chevrolet Cruze LCD AI speedometer high-definition screen Carplay navigation

### Our Product Introduction

for more products please visit us on [digital-cargauges.com](http://digital-cargauges.com)

#### Basic Information

- Place of Origin: ShenZhen,china
- Brand Name: Xstarlink
- Certification: CE-FCC-ROSH
- Model Number: ACX-XFL-02-72
- Minimum Order Quantity: 30
- Price: discussible
- Packaging Details: caton size To be verified
- Delivery Time: 3working days
- Payment Terms: T/T alibaba
- Supply Ability: 60 pcs/day

#### Product Specification

- Screen Size: 12.3Inches
- System: Linux
- Language: English, Russian, Spanish.....
- Carplay: Yes
- Driving Assistance: Yes
- Plug And Play: Yes

### Product Description:

#### Digital Car Gauges Chevrolet Cruze LCD AI speedometer high-definition screen Carplay navigation

The Chevrolet Cruze introduces a state-of-the-art digital instrument panel, setting a new standard compared to its predecessors. This advanced display integrates smoothly with the car's multifunction steering controls, giving drivers quick access to vital driving metrics. Alongside essential safety alerts, the system offers built-in navigation for added convenience.

The high-resolution 1920 x 720 IPS screen dynamically adjusts brightness to ensure clarity in all lighting environments. Customization is effortless, with four distinct theme options—Classic, Comfort, Sport, and Tech—to suit different preferences. Powered by high-performance automotive processors, the interface responds instantly, with transitions taking just one second.

By merging intuitive controls with advanced technology, the Cruze's digital cockpit enhances both functionality and driving engagement. Its user-friendly design reflects Chevrolet's focus on innovation while prioritizing driver convenience, establishing a new benchmark in automotive instrumentation.

### Features:

Product Name: car digital cluster  
Instrument size: 12.3inches:  
Resolution: 1920 \* 720  
Power on time: 2.5 seconds  
Working voltage: 0.8A-1.5A  
UI:4  
Main chip: T5

### Instrument configuration:

#### Standard Configuration:

The base model delivers essential driving metrics including real-time speed, fuel efficiency, tire pressure monitoring, and mileage tracking—all integrated with the vehicle's central computer. It features customizable display layouts, motion-sensing adjustments, HDMI connectivity, and multimedia playback functions for added versatility.

#### Connectivity Upgrade:

Building on the standard package, this version introduces seamless Apple CarPlay integration, allowing drivers to access smartphone navigation, calls, and music through the dashboard interface while keeping their hands on the wheel.

#### Flagship Package:

As the most sophisticated option, this edition merges all prior features while introducing blind-spot monitoring for enhanced safety. Designed for tech-savvy drivers, it represents the pinnacle of in-car innovation, blending intelligent assistance systems with premium functionality.

### Function Introduction:

#### Dual-Power Instrument Panel

Featuring a dual-port design, this system enhances setup speed while providing live tracking of essential vehicle metrics for improved safety.

#### Smartphone Link System

The dashboard supports wireless CarPlay with instant Bluetooth pairing, enabling voice-controlled calls and navigation prompts displayed directly on the digital cluster.

#### Surround Vision System

Factory-installed wide-angle cameras on front and right-side positions deliver expanded coverage of traditional blind spots, reducing accident potential.

#### Mirrored Display Option

For HDMI-equipped models, an add-on module duplicates infotainment content onto the main instrument screen, keeping key data in the driver's immediate view.

Basic Specifications	
System	Linux
Chipset	A133
Display	QLED fully-laminated 2K screen
Size	12.3-inch
Resolution	1920*720
Bluetooth	BT5.0
Wifi	Built-in
USB Port	Supported
Material	ABS
Fast Boot	Supported
Voltage	12V
Languages	Simplified Chinese, Traditional Chinese, English, Russian, Japanese, Spanish, German, Arabic (60+ languages)
Features	
Vehicle Information Display	Speedometer (Total/Trip Mileage)
	Tachometer
	Coolant Temperature Gauge
	Oil Temperature Gauge
	Fuel Gauge
	Gear Position Display
	Turn Signal/Hazard Light Indicator
	Instant/Average Fuel Consumption
	Battery Voltage
	Brake System Warning Light
	Airbag Warning Light
	Engine Warning Light
	Oil Pressure Warning Light
	TPMS (Tire Pressure Warning)
	Parking Sensors
	Lane Keeping/Departure Warning
	Speed Limit Reminder
	Maintenance Interval
	Trip Mileage Reset
Enhanced Features	4 UI Themes (Classic/Sport/Comfort/Racetrack)
	Smartphone Mirroring (Navigation)
	Inclinometer
	Head Unit Connectivity (HDMI Input)
	Driving Assistance (4-Camera System)
	Driving Assistance (4-Camera System)
	Door Status Display
Other Features	1 : 1 Custom Molded Housing (Vehicle-Specific Fit)
	Automatic Vehicle Data Sync (Mileage/Fuel Level/Voltage/TPMS etc.) - No Programming Required
